

# EDDI15

## The Danish National Forum for Research data Management The Danish Model

Henrik Pedersen  
President

# The Strategy

1. Politics
2. Incentives
3. Infrastructure for every step of the data life cycle
4. Support to scientists (train-the-trainers)
5. Managing DM
6. Pilot Projects

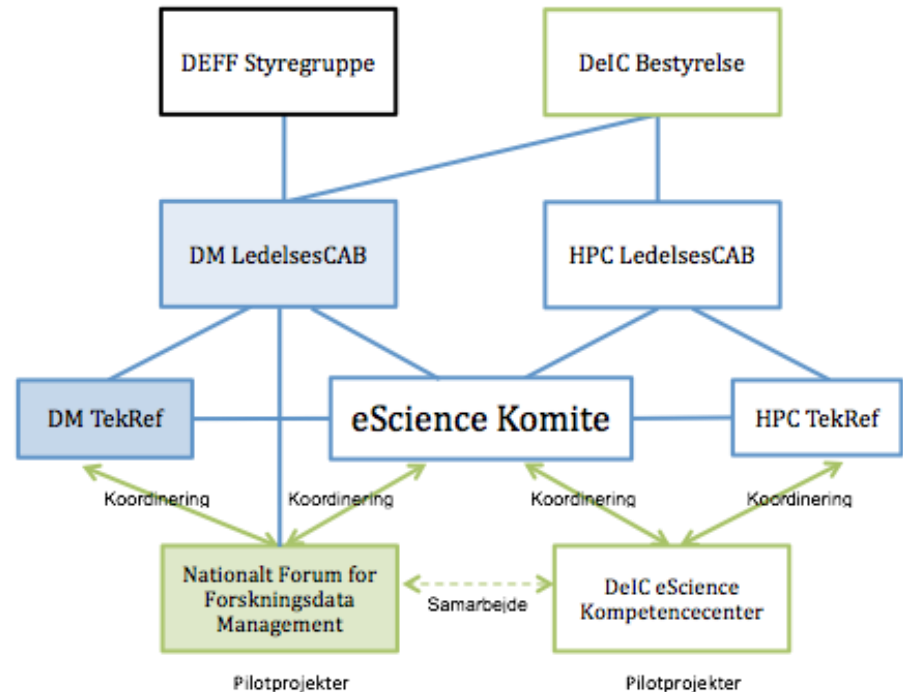

# Budget 2015-2018

- The National Archive

30 persons

# National Collaboration

## Activities

- Train-the-trainers
- Local Anchoring
- DEFF Compensate salary

## Pilot Projects

- Infrastructure
- DeiC support the hardware

# START

- August 25-26, 2015
- 1<sup>st</sup> Module of train-the-trainers: 3TU.Datacentrum, Elixir, OPEN

# **Common Ground for Vision 2018**

## **Danish Universities have a consistent set of DM Policies**

Backed by the Research Council, the Ministry, the Archives,  
and is open for other research institutions

Secure support for the researchers in planing and execution of  
DM for all of the Data Life Cycle

Are anchored both locally and internationally

Secure models for funding of DM

# Common Ground for Vision 2018 - continued

**The landscape of infrastructures for the data life cycle is understood, functioning and easily accessible**

Differentiate between and create connections between the local, the national and the international level

Comply with agreed criterias including open access and transparent business models

Have a support-function

Are rooted in local development and operating environments

Are able to handle both confidential and open data.

# Common Ground for Vision 2018 - continued

## The Stakeholders collaborate on

DM skills

Networks of Experts

Structures for incentives and merits

## Actions

1. A Survey of the Landscape of DM Infrastructures
2. Examples from abroad – what works and why
3. Planning for a series of train-the-trainers courses
4. A Ph.D. Module for DM
5. A Template for DM policies
6. A Template for DM support service
7. Templates for applications for International Funding
8. An Log for researchers
9. DM IT-Sandbox
10. Local anchoring of DM

# Data Management i Praksis projektet
